

Product Information Sheet

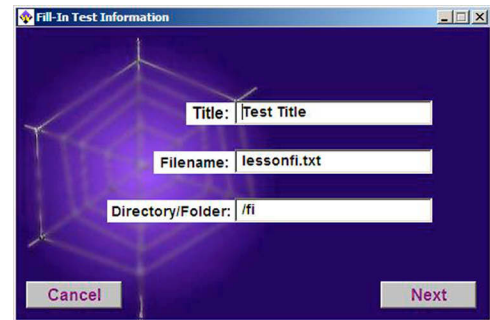

Features

- Simplicity and ease of use.
- Prepares tests for FTP to your Test Servlet server.

A test is packaged as a directory/folder containing a test file (e.g. lesson.txt), background images (.jpg), and audio files (.au) if desired.

WebTest® is a test authoring tool for Test Servlets®. **WebTest** is an application for creating Fill-In, True or False, and Multiple Choice tests.

WebTest creates a test folder and a test file. Manual contains instructions for packaging test for delivery on the web.

After tests are created, the test folder is uploaded to the host server via FTP (File Transfer Protocol). Defining Test Parameters by creating HTML to invoke the proper test servlet and test.

Number of Questions per test: 10 True/False
20 Multiple Choice, 20 Fill-In

System Requirements
